Time to put a handle on your hats!

This astral configuration encourages some friendly friction between your ambition, career, or public image (that's our Scorpio-inflected Midheaven right there) and your unconscious patterns, emotions and intuition (courtesy of Luna in the adrenaline-charged Aries). Our dear ol' Moon at a 150-degree angle with your Midheaven is set to gratuitously complicate things. Fancy a bit of cosmic Sudoku, anyone?

Now, keep a steady heart. The Aries Moon doesn't generally appreciate her intuitive waters being muddied by the intensity of Scorpio. She'd rather jet ski on the surface, thank you very much! In the relationship playground, sets of twos - two opinions, two ways of handling emotions, two approaches to problem-solving - might highlight the differences rather than syncing the rhythm. It's like two left-handed people trying to navigate a right-handed world, pulling on imaginary levers.

It's more of a cheeky, trickster god chuckle, leaving you a bit puzzled, a bit tickled, and a ton of 'roit, what next?'
